UNIVERGE[®] UC700

NEC's Enhanced Unified Communications Desktop Client

NEC's Unified Communications Desktop Client gives you the tools you need to effectively manage communication and information overload.

Innovative and feature-rich, the desktop client combines mobility, rich presence, communication history, instant messaging, call control, voice, video conferencing and collaboration into one powerful, easy to manage solution.

As an important part of NEC's approach to role-based communication, the UC700 Unified Communications Desktop Client provides you with the power to unify your business communications and tailor them to fit your needs.
