

Graduate Program

NEC Australia

The program is designed to provide graduates with well-rounded skills and experience and to help them become high-functioning members of our team. Launch your career with NEC.

Overview

As an NEC graduate, you would be challenged to step up, think beyond what's possible and to go the extra mile for our customers. Our program encourages you to embrace innovation, work collaboratively and to be courageous in contributing to change. You'll be surrounded by like-minded people who also want to make their mark on our industry, while you are supported to develop and grow by:

- Building your technical skills through on-the-job learning
- Working with a variety of our most talented industry leaders to identify opportunities, grow your confidence and build visibility of your skills and abilities throughout our business
- Developing your career through exposure to a range of new and unique experiences that only a business of our size and status can offer

Our graduate program integrates on-the-job experience, coaching, workshops, performance planning, and feedback to support the 70:20:10 approach: a framework which captures the three kinds of learning – experiential, social and formal.

We're looking for highly skilled, motivated and engaged graduates

Eligibility

- Completion of an undergraduate degree in Computer Science, Information Technology, Networking, Software Engineering or another technology related discipline within 2 years of the Graduate Program commencement date.
- You are an Australian permanent resident or Australian citizen at the time of submitting your application (All states except ACT). You are an Australian citizen at the time of submitting your application (ACT).
- You can commence full time work for a period of 18 months from the Graduate Program commencement date, August 2021.

Who are we looking for?

We are looking for highly skilled, motivated and engaged graduates who share the NEC values of innovation, collaboration, integrity and leadership and who are passionate about their field.

Excellent communication skills, along with a commitment to delivering exceptional internal and external customer service, are essential, as are problem solving skills and the ability to work well within a team.
