LED-A019i - Indoor LED 1.944 mm Poster

Mobile messaging with meaning

Move your message to where it's needed most, delivering more meaning right where it needs to be seen. NEC's LED A Series provides a free-standing message board which demands attention with vivid, high contrast content that shines out with high bright LED brilliance.

Robust enough for use in public spaces, the A Series is the ideal replacement for static roll-up banners. The dynamic content can be updated as needed to provide wayfinding assistance or promotional signage in hotel lobbies, convention centres, at trade fairs or in shopping malls.

Slim and light in weight with 1.9mm Pixel Pitch.

Benefits

Robust stand design – safe for use in areas of high public footfall.

Screen protection – with a clear protection layer the LEDs are guarded against damage whilst unhindered from delivering their full visual brilliance.

Mobile usage – light-weight and slim the LED poster provides a stand-alone design which can be moved to wherever it is needed.

Easy integration – the poster can also be integrated into walls thanks to its removable stand and slim depth.

Connectivity availability – with HDMI inputs, USB port and app based content delivery the A series is appropriately equipped.
